

Naturally Occurring Radioactive Material (NORM) Awareness Course Syllabus

Course Overview

This introductory level course is aimed at personnel who are working with NORM (Naturally Occurring Radioactive Material) in their workplace.

This course provides the participant with information on:

- NORM Assessment
- Detection of NORM
- NORM hygiene
- Working in accordance with your Radiation Management Plan (RMP)
- NORM incident response

Course Details

Location: Osborne Park, WA
Duration: 1 full day
Times: 08:30 to 17:00 (approx.)
Cost: \$850 pp (min 3 people) ex GST.

Course Variations

We can tailor the presentation of this course to meet your companies' specific needs. If you would like us to deliver this course at your premises, or present on a specific date of your choosing, please contact us so we can customise to your specifications.

Course Structure

- An Introduction to Radiation
- Radiation in Perspective
- Radiation Dose, Measurement & Protection Principles
- Regulatory Considerations
- Introduction to Handling, Transport & Storage of NORM
- Procedures: Radiation Management Systems; Security; Emergency Response
- Assessment

About this course

It is a requirement under the Radiation Safety Act 1975 that the NORM is managed under the supervision of a competent and licensed person. Licensing for NORM requires a degree of mentoring and experience prior to working autonomously.

Assessment

There are multiple practical exercises and activities throughout the course and theoretical understanding is assessed against regulatory requirements.

Certification

A Statement of Attainment is issued upon successful completion of this course.

Why choose Radiation Services WA?

We have proven know-how and reliability, with a reputation for prompt and professional service throughout Australia - our consultants have extensive experience having worked in regulatory and industrial radiation management capacities.

Our personnel have been commended for their ability to talk about radiation safety in simple terms and to put the risks into real-world perspective.

We are here to help and no matter what you require in the field of radiation management, we're able to deliver a timely and customised solution to suit your needs.
